Re: 10/800487

Please search nucleic acid sequence SEQ ID NO:439 in the above application as follows:

1. A standard search against the nucleic acid databases.
2. A score over length search, looking for hits of 15 to 30 nucleotides in length with at least 98% complementarity to the target.

Please provide alignments for all 100% hits.

Thanks,

Louis Wollenberger
